## WORK EXPERIENCE

### Redfin

2008+ (Current)

#### SENIOR DEVELOPER, DESIGNER, WEARER OF MANY HATS.

Started as a design intern, hired full time as junior developer, promoted regularly, now senior developer. Have worked on projects ranging from designing and building small features to helping architect our javascript server framework. Also helped to create and implement our ux standards/common ui component library, new hire training program, and internal tools platform. Responsibilities include mentoring new hires, designing and maintaining common systems, and building great features.

### Freelance

2004 - 2010

#### DESIGNER AND DEVELOPER

Web design and development, branding, marketing, copywriting, flash development, and video editing. Basically ran my own one man creative agency. Mostly small business packages that included everything from logo to website.

### Seattle Sonics

2007

#### WEB DESIGNER

In house web developer who helped run promotions for the Sonics and Storm. Contributed to the design, content strategy, and development of a ground up relaunch of the site. Then they left.

### Amazon
